

# ACCESS PLATE SYSTEM

Patent No. 5,481,790

CLEAN OUT / INSPECTION PORT FOR DIESEL FUEL TANKS / WATER TANKS / HOLDING TANKS

## A new solution to an old problem...

The SeaBuilt Access Plate System is a one of a kind product that allows repeated access to diesel fuel, water and holding tanks - providing a strong, leak-free clean out port for the important maintenance task of cleaning and inspecting tanks.

### The details...

Easy installation allows repeated access.  
 Patented folding backing ring - with cover plate "sandwich" tank wall.  
 Isolation from tank eliminates electrolysis problems.  
 External and internal gaskets means no messy gasket compound needed!

Two version available:  
 6061-T6 Aircraft Aluminum (for diesel fuel tanks only)  
 304 Stainless Steel (for water/holding/diesel fuels tanks)  
 (Never install the Access Plate System on gasoline tanks, or tanks containing other highly flammable liquids or gasses!)

Compatible with many tank materials: Aluminum, Carbon Steel, Iron, Stainless Steel, Monel, Fiberglass, and Poly.

APS-6 and APS-8 shown
